Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-6 and 30-34, group I, are directed to transmitting discovery marker if token was not modified, classified in class 709, subclass 251.
 - II. Claims 7-17, group II, are directed to setting a node as a master node if token was not modified, classified in class 709, subclass 251.

2. Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as transmitting discovery marker if arbitration token was not modified. Invention II has separate utility such as setting a node as a token master node if arbitration token was not modified. See MPEP § 806.05(c).

3. Because these inventions are distinct for the reasons given above and the search required for Group II is not required for Group I, restriction for examination purposes as indicated is proper. The search for the invention of Group II would require considering class 370, subclass 389 (pathfinding/routing), while the search for the invention of Group I would not.

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48 (b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48 (b) and by the fee required under 37 CFR 1.17 (i).

6. A shortened statutory period for reply to this Election/Restrictions action is set to expire ONE MONTH from the mailing date of this action. Failure to respond within the period for response will result in **ABANDONMENT** of the application (see 35 U.S.C. 133, M.P.E.P. 710.02, 710.02(b)). Any inquiry concerning this communication or earlier communications from the examiner should be directed to Philip C Lee whose telephone number is (571)272-3967. The examiner can normally be reached on 8 AM TO 5:30 PM Monday to Thursday and every other Friday.
